

EDITAL PARA CURSO DE CURTA DURAÇÃO: WINTER COURSE AT SAMARA, RUSSIA JANEIRO 2025

Estão abertas as inscrições para seleção de estudantes que fazem parte de cursos de graduação e pós-graduação vinculados as Instituições do Ecosystema Ânima, para realização do *Winter Course at Samara*.

CAPÍTULO I – DISPOSIÇÕES GERAIS

Artigo 1º O presente comunicado visa convidar estudantes dos cursos de Graduação e pós-graduação das Instituições do Ecosystema Ânima interessados em realizar o programa de curta duração nas áreas de aviação, direito, engenharia e tecnologia, através de uma parceria com a *Samara University*, da Rússia. Os candidatos selecionados deverão obrigatoriamente escolher entre os cursos listados em Anexo I e Anexo II.

Além disso, aqueles que escolherem os cursos presenciais, dispostos no Anexo I, durante o período que estiverem realizando as atividades acadêmicas do programa, terão várias atividades culturais, como viagens turísticas, excursões e passeios em museus.

Artigo 2º O programa acontecerá presencialmente, em Samara, Rússia de **24 de janeiro a 7 de fevereiro de 2025** OU de forma online, de **13 a 25 de janeiro de 2025**.

CAPÍTULO II – DAS CONDIÇÕES PARA PARTICIPAÇÃO

Artigo 3º. Para participar desta experiência internacional, o estudante deve **obrigatoriamente** apresentar os critérios abaixo elencados, cumulativamente:

1. Estar regularmente matriculado em cursos de graduação ou pós-graduação vinculados as Instituições Ânima;
2. Ser residente e domiciliado em território nacional;
3. Ser maior de 18 (dezoito) anos de idade;
4. Ter passaporte válido para todo o período de mobilidade, ou comprovante da emissão do documento;
5. Comprovar a proficiência do idioma inglês, nível intermediário, até o momento da viagem.

CAPÍTULO III – RECURSOS ENVOLVIDOS

Artigo 4º Não ocorrerá a concessão de bolsa de estudos ou qualquer outro benefício pelas Instituições de Ensino pertencentes ao Ecosystema Ânima no *Winter Course at Samara*.

Artigo 5º Os estudantes selecionados para os cursos presenciais deverão se responsabilizar por todos os custos a serem investidos no curso escolhido, referentes à:

1. Acomodação durante o programa;
2. Material do curso escolhido;
3. Visitas e excursões propostos pela Instituição;
4. Transfer de ida e volta para o aeroporto de Samara;
5. Café da manhã e almoço;
6. Assistente para tutoria durante a estadia na Rússia.

Já estudantes selecionados para cursos online deverão se responsabilizar por todos os custos a serem investidos no curso escolhido, referentes à:

1. Material do curso escolhido.

Artigo 6° Os estudantes selecionados para os cursos presenciais serão responsáveis pelos seguintes custos, não inclusos no investimento do programa:

1. **Taxa de inscrição Ânima, paga no momento da inscrição, no valor de R\$120,00, não reembolsáveis;**
2. Visto, se necessário;
3. Passaporte;
4. Passagens áreas internacionais ida e volta;
5. Refeições não inclusas no pacote;
6. Gastos pessoais.

Já estudantes selecionados para cursos online deverão se responsabilizar por todos os custos a serem investidos no curso escolhido, referentes à:

1. **Taxa de inscrição Ânima, paga no momento da inscrição, no valor de R\$120,00, não reembolsáveis;**

Artigo 7°. O pagamento dos custos investidos no programa, citados no Artigo 5°, deverá ser feito à vista diretamente para a *Samara Univeristy*. Todos os custos são de inteira responsabilidade do estudante, estando as Instituições pertencentes ao Ecosistema Ânima isentas de qualquer pagamento e/ou decisões tomadas pela parceira *Samara Univeristy*.

CAPÍTULO IV – DA INSCRIÇÃO E CRITÉRIOS DE PARTICIPAÇÃO

Artigo 8°. Os candidatos de cursos de graduação presenciais deverão realizar a sua inscrição através do protocolo **Taxa de Inscrição Cursos no Exterior**, disponível no Ulife através do caminho: Ulife > Solicitações Online > Taxa de Inscrição Cursos no Exterior. Devem informar na descrição que desejam realizar o *Winter Course at Samara*.

Artigo 9°. Os candidatos de cursos de graduação EAD deverão realizar a sua inscrição através do Sympla, pelo link: [SYMPLA](#)

Artigo 10. A inscrição deverá feita até dia **10 de novembro de 2024**.

Artigo 11. Os inscritos deverão enviar para o e-mail international@animaeducacao.com.br, em arquivo único, formato PDF (máx. 1GB), os seguintes documentos:

1. Comprovação de proficiência mínima intermediária (B2) em inglês, através de certificado;
2. Cópia do Passaporte, dentro do prazo de validade para todo o período de mobilidade, ou comprovante de emissão do documento;
3. Carta de motivação em inglês, no modelo disposto em Anexo II;
4. Histórico escolar oficial;
5. Curriculum profissional.

Artigo 12. Serão anuladas as inscrições dos candidatos que deixarem de apresentar qualquer um dos documentos supracitados, ou que não realizarem o pagamento do boleto da Taxa de Inscrição no período previsto de 5 dias úteis após a solicitação do protocolo.

Artigo 13. O processo seletivo consubstanciar-se-á nas seguintes fases eliminatórias:

1. Análise dos documentos solicitados no artigo 13 por ordem de inscrição;
2. Verificação do pagamento da Taxa de Inscrição;
3. Contato via e-mail com os candidatos selecionados para andamento com a pré nomeação;
4. Nomeação dos candidatos para a parceira *Samara Univeristy* até **15 de novembro de 2024**.

Artigo 14. Os candidatos aprovados formalizarão todas as tratativas referente ao programa diretamente e exclusivamente com a parceira *Samara Univeristy*, estando as Instituições pertencentes ao Ecosistema Ânima, isentas das decisões tomadas pela parceira *Samara Univeristy*

CAPÍTULO V – INFORMAÇÕES ADICIONAIS

Artigo 15. Esclarecimentos e informações adicionais poderão ser obtidos por intermédio do endereço eletrônico international@animeduacao.com.br.

Artigo 16. A parceira *Samara Univeristy* é a única responsável pela execução do programa em questão e responderá por quaisquer danos ou prejuízos pessoais ou materiais, incluindo-se, também, os danos materiais ou pessoais à terceiros, a que título for responsabilizando-se, inclusive, pela integridade dos estudantes, participantes dos projetos, eximindo as instituições do Ecosistema Ânima de qualquer responsabilização.

Artigo 17. Este comunicado entra em vigência na data de sua publicação.

São Paulo, 12 de junho de 2024.

ANEXO I

CURSOS OFERTADOS PRESENCIALMENTE EM SAMARA, RÚSSIA

CURSO	ÁREA	VALOR*
Russian Language and Culture	Todas	\$ 98,500 RUB
High Technology Management	Tecnologia e Negócios	\$ 98,500 RUB
Production and Testing of Aircraft Engines	Aviação e Engenharias	\$ 107,500 RUB
Airspace Materials and Technologies	Aviação e Engenharias	\$ 107,500 RUB

*Em caso de 10 ou mais inscrições, o valor poderá ser reduzido.

ANEXO II

CURSOS OFERTADOS DE FORMA ONLINE

CURSO	ÁREA	VALOR
Russian Language and Culture	Todas	\$ 26,000 RUB
High Technology Management	Tecnologia e Negócios	\$ 26,000 RUB
Startup Project Management	Tecnologia e Negócios	\$ 26,000 RUB
International Law	Direito	\$ 26,000 RUB
Soft Skills	Todas	\$ 22,500 RUB
Sustainable Business Strategies	Negócios	\$ 31,500 RUB
Production and Testing of Aircraft Engines	Aviação e Engenharias	\$ 31,500 RUB
Airspace Materials and Technologies	Aviação e Engenharias	\$ 31,500 RUB
Aircraft and Aircraft Engines Technology: From engineering Theory to Operation Practice	Aviação e Engenharias	\$ 107,500 RUB
3D Printing Technologies	Engenharias	\$ 107,500 RUB

WHY SAMARA UNIVERSITY?

Samara National Research University is the leading and most dynamically developing Russian university.

For many years, Samara University has been inextricably linked with the overall industrial and economic development of the Samara region, which is one of the leading domestic and world centers of aerospace technologies.

INSTITUTES

Aerospace Engineering
Engines and Power Plant Engineering
IT and Cybernetics
Natural Sciences
Economics and Management
Social Sciences and Humanities
Law

WHY SAMARA CITY?

- Rich History of Russia in the City: Monasteries, Stalin's Bunker, High Concentration of Sightseeings
- Resort City on the Volga River: Sandy Beaches, Boat Trips, Surfing, River Rafting, Swimming
- Space Capital: Fascinating World of Cosmonautics, Museums, and a Real Rocket
- Cultural Diversity: Russian Ballet, Multiple Theaters, Numerous Museums
- Gastronomic Delight: Top 5 City in Terms of Number of Restaurants and Cafes with Various Cuisines
- Natural Wonders: Nature Reserve, Samarskaya Luka National Park, Mountain Viewpoints

EXCURSIONS

- Fire and Rescue Museum
- Visit to Stalin's Bunker
- Center of Engines and Power Plants
- Museum of Aeronautics and Cosmonautics
- Railway Museum
- Russian Ethnographical Museum
- Butterfly Museum
- Bus Tour to Russian Car Plant AvtoVaz Museum
- Visiting the Real Submarine and Aircrafts in the Park

MASTER CLASSES

- Cooking Russian National Dishes Master Class
- Creating Ritual Martenichki Dolls with Threads

CAMPUS

- Testing Rock-Climbing Wall
- Coming to the Outside Sports Facilities

TRIPS

- River Cruise on the Volga river to Shuryaevvo Village
- Walking Tour around Shiryaevo Village and National Park
- Bus Trip to Nature Landmark Tsarev Kurgan

SUMMER LEISURE

- Picnic on the Volga Beach
- Swimming in the Volga River
- Visiting the Parks and Public Space

TUITION FEE DEFINITION

Tuition fee for on-campus international school covers the following stuff.

- Educational program under the timetable (4 hours per day)
- Arrival and departure transfer at the Samara airport
- Accommodation at the hotel (2-3 students in a room)
- 2-time meal (breakfast and lunch)
- Excursions, tours with transfers, tickets to museums
- Social and entertainment activities
- Tutor assistance during the stay in Russia

Russian Language and Culture

You will speak Russian after this school! Successful Russian language study is the study with native speakers! Meet native speakers, find out more about Russian culture and Russian people's set of mind. The school is held in English and Russian. Students are divided into groups depending on the knowledge of Russian language.

The topics of Russian language classes cover alphabet, consonants and vowels, numeral, greetings and goodbye, basic phrases, professional vocabulary, topics of students' interests etc.

We will take you to play Russian famous games, walk with you along vivid streets and show the most beautiful places of the city, visit Space museum and other exclusive sites of Samara.

Along with language classes, the school offers courses on history and culture of Russia, master classes on making Russian food and souvenirs.

High Technology Management

Students with different backgrounds will get new knowledge and skills of hi-tech enterprises' management. During the studies, students will be working on a group hi-tech/digital project.

The core of the program consists in learning modern tools of project management, effective usage of lean manufacturing in high technology companies and researching the pressing issues in management, communication and marketing.

The lecturers and coaches will teach you how to create business plan, how to predict and analyze various risks, how to exercise design thinking and implement it in a project work, how to use agility in solving professional tasks.

Our friendly international schools team, entrepreneurs and mentors will lead the participants throughout the process, thus they can take a maximum of it.

Startup Project Management

The core of the program consists in learning modern tools of project management, effective usage of digital tools and researching the pressing issues in management, investments and marketing. The lecturers will teach attendees how to create business plan, how to perform with your idea to audience and how to exercise right intellectual property.

In 2 weeks our tutors will guide you through the key milestones of StartUp lifecycle - from idea to working business . You will practice management tools that will bring your innovative idea to real project, learn how to reveal the opportunities of VUCA-world for brilliant business ideas and get feedback from international experts on DemoDay.

International Law

The School is focused on recent developments in the field of International Law. The program guides students through the central debates within the sphere. In real-time mode participants will take part in court sessions. Prior legal training is not required, as all the necessary concepts will be covered during this intensive course.

The course covers modern issues of different spheres of law such as Space, Economic or Criminal law. Lecturers, experts and professors will explain theory, show up practical cases, discuss with attendees problems and incidents and ways of its solving.

The key feature is a final project that constitutes a research article in the field of interest. Participants are free to choose any topic and make their own research. Assistance is provided by the lecturers.

Soft Skills

Modern craziness is dictating new rules and we should follow the novelty and be flexible. Soft skills are vital bunch of knowledge for here and now regardless of your background. The global lockdown showed us the necessity of harmonious coexistence of flexibility and tranquility and this course will contain the brilliant combination of tools balanced your confidence and competence.

The discipline is filled out with not only pure theoretical knowledge about personal and interpersonal skills and communication, but also with interactive, not stressing but useful tasks, games and other activities.

The main goal of the school is to rocket your personal effectiveness, confidence and leadership giving an essential set of knowledges about communication skills, negotiations, social and emotional intelligence, creative and critical thinking, self-presentation and public speaking.

At the end of this course you will have a real result in the form of brilliant CV for your future job or catchy start-up pitch.

Sustainable Business Strategies

The Sustainable Business Strategies online school provides you with a set of sustainability concepts and its indicators for effective project management, consulting services and innovative engineering solutions. To align with the Sustainable Development agenda, “business as usual” needs to integrate an ecosystem approach where natural and human worlds are closely interconnected.

The new generation of leaders needs to be cross-disciplinary and broad-knowledge. You will be taught by tenured professionals in the topics from the top-notch academic universities and companies with strong practical backgrounds. After the course, you will acquire basic skills for sustainable management, entrepreneurship and innovation.

Find your unique role and become a purpose-driven leader for business transformation all over the world!

Production and Testing of Aircraft Engines

Production and Testing of Aircraft Engines School of Samara University is an international project that brings together undergraduate and graduate students from around the world.

The program is aimed at training students in the development, calculation, design and production of aircraft engines and gas turbine power plants. Type of future professional activity of participants of this school is design and creation of aircraft engines.

This short-term program attracts everyone who is interested in studying the problems of creating new types of equipment in aviation, space and engine construction.

In addition, we are pleased to present an interesting program to the students with a visit to the aircraft engine research center and the training airfield of Samara University. The program also includes an entertainment part with tours, ethnographic lectures and museum visits.

Airspace Materials and Technologies

The creation of new materials with the required properties ensures progress in aircraft construction, shipbuilding, automotive, nuclear industry, electrical engineering and other industries.

To create a new material is half the battle. The task of making a detail out of it is even more difficult. How to make a part? What kind of equipment should be used? Technology science answers these questions.

Mechanical engineering technology is a whole complex of metalworking processes – machining, stamping, assembly, welding, casting and others. To become a good technologist, you need to know the features of all these processes. Within the framework of the international school, students will gain knowledge in many technologies used in the aerospace industry of Russia – such as pulsed magnetic field processing, hybrid, incremental, additive and other technological processes.

Aircraft and Aircraft Engines Technology. From Engineering Theory to Operation Practice

The program is designed to immerse students in the specifics of the technological processes of aircraft maintenance.

The program contains lectures on the processes of aircraft maintenance, aircraft design and systems. Workshops are targeted on the modern technical support for modeling and monitoring the technical conditions of aircraft and launching of various systems on aircraft.

Dedicated trainings and workshops are performed on the training airfield of Samara University. Participants could start the engine, check the gearbox, examine the dashboard and get in the cockpit and crew cabin on real aircrafts.

3D Printing Technologies

The program is suitable for students and engineers interested in additive manufacturing for real industrial applications. You will learn 3D modelling and design your own product. You will study how to select 3D printing process and material for a best profit performance. You will be able to drive innovation at your organization or accelerate your career with additive manufacturing!

The school provides the unique opportunity to focus on the additive manufacturing and digital modelling of processes, additive design and manufacturing in Space and Mechanical Engineering.

You will explore each of the commercial AM technologies and understand their principle method of operation, materials compatibility, and application potential.

You will be introduced to the principles of designing parts for AM for each major process, illustrated through a series of instructional examples and see artifacts produced at Samara University.

TESTIMONIALS

Leonardo Raúl Acosta Fuentes

 Mexico

International Law

The topics of the international law diploma improve my skills and knowledge about what's happening in the world and in the actual context. Learn about a culture is always important because culture is one of the main points of education and thanks to the cultural activities you get all of that knowledge and you feel like if you will be there. It was a wonderful experience!

Rongman Ma

 China

Russian Language and Culture

It is no exaggeration to say that the summer school at Samara University is definitely wonderful! Russian Language and Culture program contains various courses to help us know more about Russian Language, history and culture. There is also a lot of touring parts during the summer school. We visited lots of museums, enjoyed cooking national dishes and appreciated the scenery of Volga river.

TESTIMONIALS

Erinne Yeolencia

 Indonesia

High Technology Management

The lectures and committees of Samara International School are very warmth and kind. Lecturers explained the materials detailed and made us understand about the course. Besides that, I learned a lot about Russian culture. Even though is online, the committees and lecturers had so much effort that made us feel the atmosphere in Russia.

Muhammad Aqeel Bin Mohd Razimi

 Malaysia

Airspace Materials and Technologies

By joining this school, I have gained lots of new knowledge and got to see things from a different perspective. From my room, I got to see Russia and its people. The most interesting subject for me was 3D Printing in Space Application as I was intrigued by how fast everything can be built. All in all, it is a really beneficial program.

ADDITIONAL PROGRAM

Additional Program is a 4-day optional cultural touristic program to Moscow and Saint Petersburg.

- Day 0: Travel by night train from Samara to Moscow
- Day 1: Arrival to Moscow, Bus Sightseeing Tour around Moscow, Departure to St. Petersburg by Train, Check-in to the hostel
- Day 2: Bus Sightseeing Tour around St. Petersburg, Overlook a Drawbridge
- Day 3: Visit to Peterhof Palace, Garden, Park and Gulf of Finland
- Day 4: Tour along Channels of St. Petersburg, Visit to the Winter Palace (Hermitage Museum)
- Day 5: Departure from St. Petersburg to home country

The charge is 55,000 RUB.
